# Location

Breda is a meeting place and networking city with international allure. This is due to its unique geographic location between the main ports of Rotterdam and Antwerp. A combination which creates the possibility of fast and efficient transport worldwide. It's not a coincidence that Breda plays a leading role in logistic processes with many international companies having already chosen Breda as their European/regional distribution location.

The design of this development, it's strategic location and it's inteded target group will give companies the opportunity to carry out their operations at an ideally situated location. The development is located at Business Centre Treeport, a sustainable and high-quality image. BCT will rightfully be an eye-catcher in a green environment and will have a high-quality and sustainable appearance. Due to its location along the A16 motorway (Antwerp/Breda/Rotterdam) the property is easily accessible and has direct access to the motorway.
