# Zoning plan

At the Municipality of Rotterdam, the immovable property falls within the zoning plan: 'Business' adopted by Council Decision of 23 April 2015.

Article 8 Business - 6

## 8.1 Zoning description

The grounds designated for 'Business - 6' are zoned for:

### 8.1.1 Destinations.

- (a) distribution activities;
- b) other port-related activities, including port facility services, testing laboratories for the maritime sector and logistics services;
- (c) facilities, such as wastewater treatment, air treatment systems, vapour and odour treatment installations and electricity generation other than by means of wind turbines, which serve the uses referred to under a and b;
- (d) business-related offices;
- (e) (rail) roads and paths;
- f) water and water management facilities;
- g) quays, embankments and mooring facilities;
- h) loading and unloading facilities
- i) cables and (pipe) lines;
- j) utilities, green areas and parking facilities;
- k) fences and noise protection facilities.

### 8.1.2 Designations

On the grounds of the indication 'specific form of business - 1' on the image maritime services, and the accompanying facilities as meant in article 8.1.1 under c; where on the imagination the indication 'wind turbine' indicates a wind turbine.

### 8.1.3 Dual zoning

'Value - Archaeology - 1', insofar as the grounds are also zoned as such.

# Business insurance

If you're self-employed, own a sole proprietorship, or are a director-shareholder, you want to protect your business as effectively as possible. Because besides growth and forming great collaborations, things can also go wrong. You might be held liable by a client or get into a dispute with a supplier.

It's not just about the 'normal' dangers that apply to everyone: fire, theft, and disability. It's also about risks that are specific to a business. Think, for example, of business liability, cyber risks, and personnel risks. Moreover, your specific industry may also have its own risks such as possible inventory loss or interrupted supply.

## What insurance should I take out?

Based on your specific situation, we will conduct an assessment to find a suitable insurance solution. Most insurances are not mandatory, but they are helpful. Depending on the risks that you as an entrepreneur can or cannot/wish to bear, we will assess which insurances we deem necessary. The most common insurances include a business and/or professional liability insurance, an inventory and goods insurance, and a disability insurance.

- ✓ We find the best terms and premiums for your company.
- ✓ You are always assured of expert advice.
- ✓ A dedicated point of contact.
- ✓ Choice from 15+ insurers.
- ✓ The first appointment is on us.

# Here's a selection of our insurances

## Staff

Insurances for issues like absenteeism, accidents, and liability.

## Personal

Insurances for disability and professional liability.

## Business

Insurances covering goods, inventory, tenant improvements, business assets, fleet, buildings, glass, and business travel.

## Internet

Insurances related to cyber risks: damage caused by malware, ransomware attacks, and reputational damage.

## Your personal insurance advisor

Your advisor assists in obtaining insurances that are suitable for your company. With the business risk analysis, your most significant business risks, entrepreneurial risks, employer risks, and existing insurances are analyzed and evaluated. You gain insight into the risks and which measures are relevant to your company.

You can always count on us. Through close collaboration with all insurance companies, we can act quickly. This allows you to focus on what you do best: entrepreneurship.

## You can also insure the following

### Business Car Insurance

We offer 3 different types of business car insurance: Third Party Liability (TPL), Third Party Liability with limited coverage (Plus), and Comprehensive coverage (All-risk). This ensures you have insurance that fits your specific situation.

If necessary, you will receive legal assistance in disputes concerning the company car. For example, when claiming passenger insurance. Damage to the driver and passengers is covered, as well as damage to items in or on the vehicle resulting from the accident. Even if you are not liable for the damage, you are insured. Convenient, isn't it?

Are you opting for business use of a private car, a company-owned car, or business leasing? The most favorable option depends on several factors, such as the number of kilometers you drive privately and your initial capital. Together, we can determine the best way of Business driving for you.
